

Amendments to the Claims:

This listing of claims will replace all prior versions and listings of claims in the application.

Listing of Claims:

1. (Original) A method of obtaining a liquid medicinal means is that honey is treated thermally, the obtained solution settled, then the solution is mixed with an adsorbent and settled again, afterwards filtered.

2. (Original) The method of claim 1 is in that the honey is treated thermally at 100-160°C temperature.

3. (Original) The method of claim 1 is in that the liquid obtained in result of thermal treatment is settled during 22-26 hours.

4. (Original) The method of claim 1 is in that before mixing with adsorbent the mixture is heated.

5. (Currently Amended) The method of ~~claims 1, 4~~ is claim 1 in that after mixing with adsorbent the mixture is settled during 10-14 hours.

6. (Currently Amended) The method of ~~claims 1, 4 and 5~~ claim 1 is in that ratio of adsorbent and the liquid is 7:100.

7. (Currently Amended) The method of ~~claims 1, 4 and 6~~ claim 1 is in that the adsorbent is an activated carbon.

8. (Original) The method of claim 1 is in that the filtering is performed twice.

9. (Currently Amended) The medicinal means ~~is characterized in that it is obtained under the method of any claims 1-8~~ claim 1 and its pH is 3- 4.

10. (Currently Amended) The medicinal means of claim 9 ~~characterized in that~~ wherein it is an injection solution.

11. (Currently Amended) The medicinal means of claim 9 ~~characterized in that~~ wherein it is used for bio-stimulation, for treatment and prevention of microbial and viral infections, tumor processes.

12. (Currently Amended) ~~Use according the claim 11 is characterized in that~~ A method wherein the medicinal means of claim 11 is sued administered for prevention of tumor processes relapse.

13. (Original) A method for obtaining a dry powder is in that the medicinal means of claim 9 is mixed with the pharmaceutically acceptable auxiliary means, the obtained mixture is dried and the dry mass is pounded.

14. (Original) The method according the claim 13 is in that the mass ratio of the medicinal means and the pharmaceutically acceptable auxiliary means is 1: 1.

15. (Currently Amended) The method according the ~~claims 13-14~~ claim 13 is in that pharmaceutically acceptable auxiliary means is sodium bicarbonate.

16. (Currently Amended) A medicament containing an active ingredient placed in a capsule ~~is characterized in that as~~ wherein an active ingredient contains the powder obtained under the method of ~~claims 13-15~~ claim 13.

17. (Currently Amended) The medicament according the claim 16 ~~is characterized in that~~ wherein it contains the active ingredient in the quantity of 0,3-0,6g.

18. (Currently Amended) The medicament according ~~the claims 16 and 17~~ to claim 16 is used for bio-stimulation, for treatment and prevention of microbial and viral infections and tumor processes.

19. (Currently Amended) ~~Use according the A method wherein the medicament of~~ claim 18 is performed administered for prevention of tumor processes relapse.

20. (Currently Amended) A pill containing the active ingredient and the pharmaceutically acceptable filling agent ~~characterized in that~~ wherein as an active ingredient contains the powder obtained under the method of ~~claims 13-15~~ claim 13.

21. (Currently Amended) The pill according the claim 20 ~~is characterized in that~~ wherein it contains the active ingredient in the quantity of 0,3-0,6g.

22. (Currently Amended) The pill according ~~the claims 20 and 21~~ to claim 20 is used for bio-stimulation, for treatment and prevention of microbial and viral infections and tumor processes.

23. (Currently Amended) ~~Use according the A method wherein the pill of~~ claim 22 is in that it is performed administered for prevention of the tumor processes relapse.

24. (Currently Amended) An ointment ~~is characterized in that~~ wherein it contains the medicinal means according the claim 9 propolis, St.-John's wort oil, beeswax and water.

25. (Currently Amended) The ointment according the claim 24 ~~is characterized in that~~ wherein it contains components in the following ratio of mass portions:

Medicinal means	3-5
Propolis	24
Oil of St.-John's wort	9-11

Beeswax 6-8

Water 4-6

26. (Currently Amended) The ointment according ~~the claims 24 and 25~~ to claim 24 is used for treatment of wounds of skin and soft tissues, burns, purulent processes and trophic ulcers.
